HOW DOES THE EXTRAORDINARY HAPPEN

Projects go well because attention is paid to them! Weekly, daily, hourly, and sometimes by the minute schedule adaptations are necessary to effectively move a project forward.

Communication is **Key**. Knowledge and Experience are **Critical** and **Service** is what we provide.

At **Renovations**

each of our staff have cell phones and a project manual. This affords quick access to Owners, our team, suppliers, code officials, and subcontractors with the answers we need to move the project forward.
